

Indian Conference on Life Cycle Management (ILCM) 2016

17-18 October 2016 | New Delhi, India

About ILCM 2016

As the world is welcoming Sustainable Development Goals (SDGs) for better future of the planet, transition towards a more sustainable economy will require adoption of Life Cycle approaches. In line with the SDGs, the cornerstone for this year's theme is the applicability of Life Cycle based tools and approaches in enabling a shift towards Responsible Consumption and Production.

ILCM has established itself as one of the most sought-after events in South Asia, it brings together Indian and International LCA community, stakeholders including government, industry, academia, as well as the voluntary sector to explore the applicability of Life Cycle Thinking for realization of SCP patterns.

Who should attend:

- Policy Makers
- Business Leaders
- Managers
- Consultants
- Academia
- Multilateral Agencies
- NGOs

Special Features

Conference Program is focused on following thematic streams:

1. Application of LCT in Industry
