Profile: **Chalaka Fernando** MSc (Chem Eng), BSc (Hons), CEnvP, PhD (reading)

Chalaka Fernando is an enthusiastic sustainability practitioner having 14years work experience related to industrial environmental management, management systems and compliance. He holds BSc with Honors from University of Peradeniya Sri Lanka and MSc in Chemical & process Engineering, from University of Moratuwa Sri Lanka specializing on LCA. He has completed post graduate certification courses in Japan, Hungary & Denmark on sustainability, climate change and LCA and currently reading PhD on LCSA.

Currently he is the General Manager Sustainability for MAS Fabrics Pvt Ltd, the largest textile & apparel supplier in Sri Lanka. He also worked for a multi-national cement company more than 10years both local and global in senior management level positions.

Simplifying the LCA findings for effective interpretation, adding consumer perspective to LCA studies and linking to business strategies are his interest co-elements in LCA/M sciences.
